WAGON MINE OPERATORS MAKE A VIGOROUS PROTEST

Appear Before Interstate Commerce Commission on Saturday

CAR ORDER MAY BE REVISED

The wagon mine coal operators of the county were given a hearing before the Interstate Commerce Commission at Washington on Saturday last, and it resolved itself into a test of strength between the big coal companies, with improved facilities for dumping and the man who operates a wagon mine, hauling his coal from the pit over three or four miles of country road to a railroad siding and then shoveling it into a car.

In this contest Charleroi is greatly interested, for there are a number of operators interested in wagon mining in the vicinity, who have organized themselves into an association for the purpose of contesting the order, both before the Interstate and the Public Service Commission. They have been practically put out of business by the ruling, which has been in effect for the past three or four weeks.

At the hearing on Saturday the wagon mine operator charged that the order now in effect discriminates against the little fellow: that to direct the railroads to deliver cars to the mines having tipples and sidings and only permitting the wagon mine owner to have box cars is unfair to the latter, because the cost of loading the box car is more expensive and does not give him a chance to compete with the more highly organized competitor.

One wagon mine owner from Clearfield county citer what he declared was discrimination on the part of the carriers and declared that where the large coal companies, particularly those having contracts with the railroads for fuel, were amply provided with cars, others were refused the proper facilities, despite the fact that they had demonstrated their ability to load a car in not to exceed five hours. He told of favored large operators being furnished with as many as 50 cars at a time and that these cars quite often lay idle for days because of labor troubles at the mines. Figures were produced to show that wagon mine owners had a record of 100 per cent efficiency in loading as against 70 per cent by the large companies.

When one of the representatives of the small mine owners charged that the order relating to car distribution hit the little fellow and benefitted the big competitor with modern equipment, Commissioner Potter declared that such was not the intent of the order. The commission, he said wanted to eliminate the inefficient operator and protect the small mine owner who is using his best efforts to get the coal to market in competition with his more formidable rival.

The hearing developed that there is more or less bitter feeling between the two classes of operators and that the wagon mine is convinced that the transportation companies are discriminating against him in favor of the big operators.

Commissioner Potter said plainly that if the commission's order was not bringing the desired results it would be changed or amended, if necessary. He indicated that the commission is after efficiency and proposes to leave nothing undone to keep cars moving and providing every section of the country with fuel.

CONSUMERS PREVENTED RAISE IN MILK PRICES

Milk will remain at 15 cents a quart in Altoona this fall, a contemplated advance in price having been postponed. Consumers, starting boycott of dealers who announced the price would be raised, cut consumption virtually in half. Moreover, the wet weather has made pasture good and caused the milk supply to be plentiful. For the first time since the war began farmers are hunting customers for their surplus supply.

DEMONSTRATION ON LABOR DAY A SUCCESS

The Labor Day demonstration in Charleroi, under the auspices of the Monongahela Valley Trades Council was one of the most successful events ever arranged for by that organization. The day was all that could be desired, and thousands of visitors from up and down the valley were here during the day, many of whom participated in the parade at 11 o'clock in the morning. Many local Unions were in line, and music for the occasion was furnished by five bands and two drum corps. In the afternoon an athletic program at the ball park furnished entertainment for visitors and townspeople, and plenty of action was furnished. There was base ball, a game of soccer football between Dunlevy and Gallatin, with Dunlevy the winner, and the day ended with a series of boxing bouts. In the preliminary Willard Latchem,a local heavyweight KO'd one Joe Hook in the first round; Steve Carter got the verdict over Cocka Dilla of Castle Shannon, while Young Pinchot won a 10-round bout over Mickey Dillon. Altogether it was a great day and all who attended appeared to enjoy every feature of the occasion.

J. L. Krepps, of near Perryopolis Charles Dorsey, of West Brownsville and Dr. J. Add Sprowls, of Donora, have been selected as judges for the agricultural and fashion show to be held at Turner Hall, Thursday and Friday, September 9 and 10.

I will collect that rent, positively in advance and guarantee no vacancies. Clyde B. Cope, Real Estate and Insurance, 315 McKean avenue. 21-tf*

Dr. H. W. Temple Spoke at Clan Reunion on Saturday

One of the most enjoyable occasions of the summer took place at Eldora Park on Saturday last, September 4, when a number of the pioneer families of Fallowfield and Carroll townships held a joint reunion at that place. W. M. Wickerham welcomed all in his usual genial manner, and in a short time you were not able to realize whether you were a member of the Carson Scott, Riggs, Hazelbaker, Rogers, Frye, Sphar, Wickerham, Sampson or Grant Clan.

Owing to the fact that the grounds were tempting and the Clans had not met since the joint union at Oakland Park five years ago, they lingered longer than they realized over the festive board, and the shadows began to lengthen before the literary program, which took place immediately following the dinner, was completed.

A number of the members gave place on the program to Henry W. Temple in order to give the people the opportunity to hear the League of Nations thoroughly discussed.

Those coming from a distance were Mr. and Mrs. Charles Frye from Bridgeport, Conn., Mr. and Mrs. Joseph Beazell, from Indiana; James Williams from Kansas, and Dr. Florence Grant Dressler from Cuba.

The day was an ideal one and many of the older members were present. Mrs. Woods from West Newton, who was one of the Beazell girls, was the oldest, being ninety-three. Adam Wickerham of Carroll was the oldest man present. The ladies had many amusing incidents to relate concerning registration for voting.

Mrs. Eliza Grant was the first woman to pay her occupation or poll tax in the first precinct of Carroll township at Victory school house.

The meeting was called to order and opened by an address by the President, John Rogers. "America" was sung, led by Cornelius Carson and Mrs. Westley Rogers and as they sang, the women realized that this was the first year they could truthfully sing, "My Country," that it was the turning point in their lives, whether for weal or woe, only as they used the ballot. Rev. Greenlee of Charleroi led in prayer.

An interesting letter was read by Mrs. Mary Sampson, written by Ada Sampson Dallas, reminiscences of her girlhood days, of the singing school conducted by Stephen Applegate, of those who attended, other events which occurred in the nearby neighborhood. She also spoke of the ably written history of the Grants, by May Grant Riggs, and that of the Sampsons by Mrs. Sampson of Ohio. Charles Frye then took the floor and spoke on revolutionary days. He was one of the chief promoters in forming this union. Mr. Tule, a young man from the Navy, [illegible] to their names. The professional ventriloquist was most amusing, and many are wondering what he meant when he said, "Charleroi was high, but not dry." Can it be there are wet and soggy places in Charleroi?

Mr. Temple's address was the feature of the occasion. He spoke on the League of Nations, or rather led up to it from the family to the tribe, from the tribe to the state, from state to nation, and from nation to League of Nations. His address was instructive and to the point. The closest attention was paid to his lecture, and all felt amply repaid for coming. A vote of thanks was tendered him by the unanimous vote of the Clans.

John Rogers as president and Miss Nan Cooper as secretary [illegible] officers, also the chairmen of [illegible] Clans in behalf of the Union and the fine program rendered was appreciated. The next reunion will be held five years hence, [illegible] be designated.

John Peltonen.

John Peltonen, aged 43, died at the Charleroi-Monessen hospital at 10:45 a. m., Monday, September 6, from injuries received on Saturday in Vesta No. 5 mine, when he was crushed by a fall of slate. Funeral service will be held from his late home in Twilight, Wednesday afternoon at 4 o'clock, fast time, interment in Charleroi cemetery.

Mrs. Nancy Jane Burrell.

Mrs. Nancy Jane Burrell died at her home in East Charleroi, Monday morning, September 6th. Funeral Wednesday at 2 o'clock p. m., interment in Grandview cemetery. She was a member of St. James A. M. E. church and Rev. J. E. Gumes will officiate at the funeral services.

MINER FALLS DOWN SHAFT, ESCAPES DEATH

Thursday morning at 10 o'clock Mike Culvin, aged 56, sustained severe injuries when he slipped six or eight feet to the bonnet of a cage in the mine at Cokeburg, and slipping farther dropped 250 feet before he again stopped. He sustained three severe cuts on the head. He was removed to the Cokeburg hospital, where he received treatment, and later was able to be taken to his home. It is believed he will entirely recover.

ALMOST 12,000 WOMEN ARE REGISTERED IN THE COUNTY

Believe That the Majority of Them Will Vote in November

MANY ELECTION INTERESTING

It is estimated that when all of the returns from the county are in, it will be found that about 12,000 women have registered for the forthcoming election in November. Unofficial returns from all but five of the 155 election districts in the county show a total registration of 11,917. With the remaining districts reporting and with final returns from Monongahela, which will not be available until the 2nd of October, it is believed the 12,000 mark will be passed.

It is considered that probably half of the 40,000 women of voting age estimated in the county are of foreign birth, many of them not eligible to vote or even speak English, it will readily be seen that the women have made a record to be proud of in the first registration. Many who have followed their interest in the struggle for the ballot predict that practically half of them who went to the trouble of registering will be sure to cast ballots at the election. What effect 12,000 additional voters will have on results this fall can only be conjectured.

In the registration lists Charleroi shows up with a total of 645, divided as follows:—First precinct, 179; second, 141; third, 119; fourth, 102; fifth, 46 and sixth, 58. North Charleroi has 98; Dunlevy has 19; Twilight 6; Speers, 39; Stockdale 48. Donora has a total registration of 569 women, while Monongahela will run something over 500.

Both of the leading parties will make extra efforts to enlist the services and strength of the women voters, although it is believed they will follow closely the lines of voting followed by the male members of the family. There may be some occasions where the family will divide on the political question, but they are believed to be few. Howevere, great interest will center in the returns from the election in November because of the right of franchise which has been conferred on woman.

172 BENTLEYVILLE WOMEN REGISTER AS VOTERS

Complete returns show that 172 women in Bentleyville registered as voters on Tuesday and Wednesday of this week. Members of the [illegible] Clubs were untiring in their efforts and were much pleased with the result in getting women to register. Most of those who registered were Americans, as there was difficulty in reaching the foreigners.

HILL CLAN HOLDS ANNUAL REUNION

The fifth annual reunion of the Hill families was held at Oakland [illegible] last under the most favorable circumstances. The day was ideal for the occasion and a goodly number of the Clan assembled to do honor to the event, although a number of the near relatives were delayed by sickness.

Departing from the real old picnic custom, where the "eats" are always a feature, large tables were prepared, and as usual, loaded with all the good things to eat that could be prepared by members of the Hill clan.

Immediately after the inner man had been satisfied the assembly was called to order by the Rev. W. E. Edwards, who in his usual clever manner acted as toastmaster for the occasion. Rev. Clarence Weaver of Beallsville, spoke along the line of sociability and patriotism, displayed on these occasions.

Rev. James Hill Weaver, of Steubenville, O., one of the oldest members of the Hill family, spoke on progress and advancement of the present day; also in a reminiscent manner of some old time remembrances which were enjoyed by all. Joseph Wilkins of Canfield, Ohio, gave a short talk on family reunions.

Mrs. J. N. O'Neil of Charleroi, historian, read interestingly from data prepared for the occasion giving an account of the early settlement of the Hills in Washington county, after emigrating from Ireland, they being among the first settlers in the vicinity of Hillsboro.

At the conclusion of the program election of officers for the ensuing year was held with the following results:

President, Chas. M. Hill; vice president, A. E. Hill; secretary, Rev. E. Howard, and treasurer, Capt. J. N. O'Neil.

The executive committee was directed to secure a suitable place for the next reunion, which will be held on the first Saturday of September, 1921. A very pleasant social session was held during the afternoon and evening, concluding with sports and games under the direction of Miss Marie Hill, all of which were very much enjoyed by contestants and spectators alike. During the past year there were six deaths and four births in the Hill clan.

HUMOR IN THE CABINET

According to a Washington dispatch, "a member of the President's Cabinet" has drawn up and sent to the governor of every State for introduction into its legislature a bill making a felon of any legislator whose vote upon any measure is "in violation of any principle or policies set forth or declared for in the party platform upon which he is elected" and providing that when convicted of such offense he shall be confined in the penitentiary "not to exceed ten years" and "shall forfeit his rights as a citizen to vote." Such is the report, but it may well be doubted whether any Cabinet member has thus perpetrated a jest so wide reaching. If a Cabinet member has so, he ventures to take the risk of "making fun" of all party platforms and practically all legislators now serving or to be elected.

If such a bill were enacted into law, it would send to jail nearly every politician in the country. Is there even one legislator or elected official who always has consistently voted or acted strictly according to platform policies and promises? Probably there is not one who could do so even if he tried very hard. for most platforms are not only inclined to be indefinite or to straddle—in order to catch voters of all opinions—but are crowded with pledges that can not be made good even if their authors want them to be. which is not likely. It would indeed be well if legislators could be bound by the more important of the platform promises made for them, but they can not be for the reasons stated and because most platforms can be and will be interpreted according to the political exigency of the hour. Manifestly this proposition is a mere jest at the expense both of shifty legislators and the present-day mania for regulating everything under the sun.

One end of the submarine was out of water. the forward end being submerged at an angle of about 60 degrees Members of the crew bored a hole in the steel hull out of which they stuck a pole, to which was fastened a white shirt as a signal of distress. In this position they were found by the steamer Alanthus, which rescued the crew. LETTER FROM MRS. BRUCE

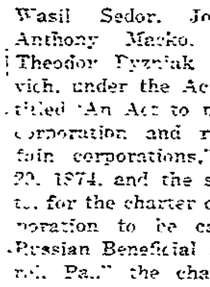
Tells Remarkable Story of Sickness and Recovery.



Brooksburg, Ind.—"When I was a young girl I clerked in my father's store and lifted heavy boxes which caused displacement and I suffered greatly. I was married at the age of eighteen and went to a doctor about my trouble and he said if I had a child I would be all right. After three years twins came to us and I did get all right but three years later a baby boy came and I was troubled again. I could scarcely do any work at all and suffered for four years. A neighbor told me about Lydia E. Pinkham's Vegetable Compound and I took it for a year or more. Now I have a baby girl and do not have any female trouble. You can do anything you like with my letter to help others." —Mrs. J. M. Bruce, R. F. D. 3, Brooksburg, Ind.

Fordson

TRADE MARK

Farm Tractor

The Fordson cuts the cost of preparing land almost to half of what it cost with horses. But even more important is the fact that the Fordson saves from thirty to fifty per cent of the farmer's time. And time saved—getting fields in shape to plant in the proper season; getting things done when they should be done—means money to the farmer. Besides it helps greatly in solving the labor problem.

As ever, the machine way is proving more efficient, faster, easier than the old hand way. In the factory, the machine increases production, saves labor—produces more at less cost. And that is what the Fordson does on the farm. The Fordson way is the machine way of farming. Besides it helps the labor problem.

The Fordson's first cost is low; and the after of operating cost is low. It is a compact, easily handled tractor, backed by the greatest tractor service organization in the world.

We are Fordson dealers. Not only do we sell Fordson tractors, but we carry a stock of Fordson parts and employ Fordson mechanics to help the farmers get the best results from the Fordson. Let us demonstrate the Fordson on your own farm.

and the continued movement away from the farm today greatly increases the economic importance of the farmer who stays on the job.

His numbers diminished, the nation's demands upon him for food and clothing increased, a great responsibility rests upon his shoulders.

Our many years of close cooperation with local farming interests have given us a practical, common-sense understanding of the farmer's problems. This enables us to render a banking service which farmers find especially helpful under present conditions.

Section 1. Be it resolved by the Senate and House of Representatives in General Assembly met, That the following amendment to the Constitution of Pennsylvania be, and the same is hereby, proposed, in accordance with the eighteenth article thereof:—

That article nine, section eight, be amended to read as follows:

Section 8. The debt of any county, city, borough, township, school district, or other municipality or incorporated district, except as provided herein and in section fifteen of this article, shall never exceed seven (7) per centum upon the assessed value of the taxable property therein, but the debt of the city of Philadelphia may be increased in such amount that the total city debt of said city shall not exceed ten per centum (10) upon the assessed value of the taxable property therein, nor shall any such municipality or district incur any new debt, or increase its indebtedness to an amount exceeding two (2) per centum upon such assessed valuation of property, without the consent of the electors thereof at a public election in such manner as shall be provided by law. In ascertaining the borrowing capacity of the city of Philadelphia, at any time, there shall be deducted from such debt so much of the debt of said city as shall have been incurred or is about to be incurred, and the proceeds thereof expended, or about to be expended, upon any public improvement, or in the construction, purchase, or condemnation of any public utility, or part thereof, or facility therefor, if such public improvement or public utility, or part thereof, whether separately or in connection with any other public improvement or public utility, or part thereof, may reasonably be expected to yield revenue in excess of operating expenses sufficient to pay the interest and sinking-fund charges thereon. The method of determining such amount so to be deducted, may be prescribed by the General Assembly.

In incurring indebtedness for any purpose the city of Philadelphia may issue its obligations maturing not later than fifty (50) years from the date thereof, with provision for a sinking-fund sufficient to retire said obligations at maturity, the payment to such sinking-fund to be in equal graded annual or other periodical instalments. Where any indebtedness shall be or shall have been incurred by said city of Philadelphia for the purpose of the construction or improvements of public works or utilities of any character, from which income or revenue is to be derived by said city, or for the reclamation of land to be used in the construction of wharves or docks owned or to be owned by said city, such obligations may be in an amount sufficient to provide for, and may include the amount of, the interest and sinking-fund charges accruing and which may accrue thereon throughout the period of construction, and until the expiration of one year after the completion of the work for which said indebtedness shall have been incurred; and said city shall not be required to levy a tax to pay said interest and sinking-fund charges as required by section ten, article nine of the Constitution of Pennsylvania, until the expiration of said period of one year after the completion of said work.

Iron Bolt in Nose Many Years.

Dr. Irving Wilson Voorhees had recently, in the West Side dispensary, New York, to attend a man of thirty-four for serious trouble in his nose. The surgeon discovered far up the right nostril an iron bolt 2 1-8 inches long, half an inch wide and weighing more than an ounce. This had been there for 17 years, it having been driven in by the explosion of a gun he was trying to make. The man had never been able to find that bolt, but, strangely enough, had never looked for it in his nose and never suspected its presence.

Began the Collar Tyranny.

The earliest pictorial proof of the use of the collar proper dates from Elizabethan times, when the ruff was the principal form of neckwear. After this gold and silver vellum fringes were the fashion for a considerable period, these being supplanted by collars similar to those worn today, save for the fact that they formed part of the shirt. But this arrangement was an extravagant one. As soon as a collar was soiled the shirt had to be shed for washing purposes.

Sydney's Future Assured.

Sydney, about the size of Cleveland or Detroit, is the largest city in the eastern hemisphere south of the equator and is destined soon to reach a population of 1,000,000. It has a magnificent harbor, ranking with the harbors of New York city, Rio Janeiro and Hongkong, among the finest in the world. More than 200 miles of water front are available, much of which is occupied by public parks and private residences, though ultimately available for commerce if required. The founders of the city wisely provided for an abundance of open space, now utilized in parks and public grounds, with a multitude of excellent roadways and beautiful trees. Flower beds are everywhere. Detached houses are the rule. As in other cities of Australasia, a very large share of the population is located in suburbs, with abundant room.

Laws also may be enacted affecting the organization and government of cities and boroughs, which shall become effective in any city or borough only when submitted to the electors thereof, and approved by a majority of those voting thereon.

Spider's Silk.

Experiments are in progress in Madagascar as a result of which it is hoped that a fine silk may be produced from spiders' webs. According to recent reports, excellent progress has been made by those in charge of the tests. The thread produced by spiders is declared to be finer in quality, stronger, and more beautifully colored than that obtained from silk worms.

Loss by Storing Pulpwood.

It has been found by observations made at a sulphate pulp mill that pulpwood kept in storage from two to three years yields, on the average, 28 per cent less pulp than wood used when it is green, says Popular Mechanics Magazine. Pulpwood stored even one year loses 14 per cent of its value in pulp production.

A Tasteless Castor Oil

A remarkable new process, perfected by Spencer Kellogg & Sons, Inc., one of the world's largest manufacturers of castor oil, has made castor oil *absolutely* tasteless. Strength and purity remain the same. Nothing has been removed but that nauseating taste. This valuable new form of the good old family remedy is strongly recommended by up-to-date doctors and druggists. Children take it without even knowing it is castor oil. Take no substitutes. If you want a *really* tasteless castor oil, insist on *Kellogg's Tasteless Castor Oil*, laboratory bottled, plainly labelled.

OLD PAL PETE:

This is a P. S. to the letter I wrote you on the buzzing Limited. Kid, for a fact, I'm hitting 13 on making up Camel advertisements. *And I'll say it right here!* Porter, give us the lights!

Just skimmed another swell Camel fact! Stop this: Guess I've smoked a million Camels! Pete, they never tired my taste yet!!!! And, old socks, *put Camels to the test!* Then you'll wise up that Camels leave no unpleasant cigaretty after-taste nor unpleasant cigaretty odor!

That's some smoke news, I'll say, when you been trying to fuss the "straight" brands! And, old shoe, *you ought to know*, they gave you a lacing!

What makes a dent on my disposition is that while Camels are the mildest cigarette and the mellowest cigarette any man can buy they've *got all the "body" you ever heard tell of!*

Why Pete, I got as many new selling ideas about Camels as there are hairs on a purr-kitty's tail!

Drop your old lamps down here,—how's that for blazing the joy Camels pass out!

Me for more of 'em
